TECHNICAL PROFILE

Agentic AI labs need more than demos. I architect tool-using workflows with orchestration layers, evaluation harnesses, and guardrails that keep autonomous agents auditable in production.

RELEVANT EXPERIENCE

- Margaradarshaka *Co-Founder and Technical Lead, Remote* Jan 2025–Present
 - Held real-time voice delivery inside a projected INR 50-per-call ceiling - balancing Whisper inference, response latency, and mandatory human review before any scaled commit.
 - Prototyped a Whisper/C++ edge inference path to hold per-call compute inside the INR 50 ceiling - bounded automation before full voice-stack spend.
- Founder and President *Hult AI Collective, London, UK* Jan 2025–Present
 - Expanded practical AI learning beyond club events through a guest lecture on agentic workflows and AI-assisted software development for the wider student body.
 - Kept the hackathon’s closing programme on schedule after confirmed external speakers withdrew by designing and delivering the replacement AI workshop at short notice.
- Siya The Restaurant, SRBS Group Jan 2025–Jan 2026
Menu Engineering Consultant, Jaipur, India
 - Built the property restaurant’s first digital consumption baseline by OCR-digitising two years of handwritten kitchen registers into SKU-level data for par levels, preparation forecasts, and stock variance checks.
 - Equipped restaurant staff with an auditable Excel pricing model for 191 menu items, replacing opaque judgement with transparent formulas and repeatable decision rules.

- Agentic Workflow and Evaluation Platform Jan 2025–Dec 2025
 - Engineered an agent orchestration layer with tool routing, structured memory, retry policies, and mandatory human approval for high-risk actions.
 - Built an evaluation harness that compared task success, latency, token cost, tool reliability, and recovery across model and prompt changes.
- Presentation Format Conversion Platform Jan 2025–Dec 2025
 - Reduced format lock-in by separating the conversion core from format adapters, creating a practical path for new import and export targets without rebuilding the desktop application.
 - Built bidirectional round-tripping among PPTX, Google Slides, and HTML inside a local-first Electron shell, preserving animation intent through an extensible plug-in layer.

- Hult International Business School | London, UK *Expected May 2027*
- Triple Crown Business School | Bachelor of Business Administration
 - ~~Double Major~~ Double Major in Design and Design (Double Major)
 - ~~£7614.00~~ £7614.00 | UK Firsts honors
 - ~~Honors~~ Honors List for consecutive terms; Academic Excellence Scholarship; Social Impact Award; Full-Ride Master’s Grant
 - ~~Design Thinking in Practice~~ Design Thinking in Practice; Design Thinking in Web Design; Creativity; Future Proofing Challenge; Design 1
