RELEVANT EXPERIENCE

Siya The Restaurant, SRBS Group Jan 2025–Jan 2026
Menu Engineering Consultant, Jaipur, India

- Sequenced back-of-house control from delivery intake through storage and FIFO rotation, preparation allocation, shift handover, and daily reconciliation.
- Built the property restaurant's first digital consumption baseline by OCR-digitising two years of handwritten kitchen registers into SKU-level data for par levels, preparation forecasts, and stock variance checks.

Savi Hotels & Resorts Operational Lead, Jaipur, India Jan 2021–Jul 2026

- Completed property handover by running site analysis, verifying room and F&B inventory, and formulating operating agreements - then fitted the meeting room and banquet spaces to a bookable standard before the first guest weeks.
- Grew weekly rooms from four room-nights at takeover to a peak week of five full-property sell-out days - market timing helped, but the ramp held only after corporate MICE banquets ran morning to evening and walk-in family lunches shared the same kitchen and service spine.

RELATED PROJECTS

Independent Culinary Development and Kitchen Systems Practice Jan 2021–Present

- Improved service readiness through repeatable mise en place routines spanning vegetable preparation, knife work, sauce bases, fermentation, temperature checks, and close-down hygiene.
- Standardised culinary development into a service-ready system built around preparation lists, labelled storage, FIFO rotation, allergen separation, and timed batch plans.

Culinary Operations Rotation Jan 2021–Present

- Executed knife work, sauce bases, and timed batches against live service windows while maintaining FIFO, allergen, and temperature controls.
- Maintained saucier control from production through handover, protecting reduction timing, multi-sauce consistency, holding temperature, and close-down hygiene.

EDUCATION

Hult International Business School | London, UK Expected May 2027
