GROWTH PROFILE

Open-source foundations grow through contributor trust, not marketing blasts. I run maintainer programmes, documentation sprints, and governance rituals that sustain active communities.

RELEVANT EXPERIENCE

Founder and President *Hult AI Collective, London, UK* Jan 2025–Present

- Made HAC's work reusable and publicly legible through kartavya.tech/HAC, centralising event records, technical resources, and treasury infrastructure in one operating hub.
- Took Hult's student AI organisation from operating concept to public launch by building its programming calendar, outreach cadence, event delivery, treasury controls, and technical infrastructure.

Margadarshaka *Co-Founder and Technical Lead, Remote* Jan 2025–Present

- Ran Margadarshaka's pre-scale GTM as gated experiments - demand tests, counsellor capacity checks, and unit-economics checkpoints before marketing spend.
- Drafted early cap-table scenarios and angel-outreach materials while mapping investor fit against counselling-liability and payer-user alignment risks.

AstroPatshala *Co-Founder and Operations Lead, Remote* Jan 2021–Present

- Built and maintained two production codebases governing customer acquisition, education delivery, research publishing, and internal operations - with deployment cadence tied to licensing releases.
- Structured AstroPatshala research publishing and course licensing as repeatable GTM assets - pricing tiers, channel partners, and delivery packaging aligned to the operating model.

RELATED PROJECTS

Personal Brand and Digital Presence Jan 2020–Present

- Unified positioning across LinkedIn, Instagram, and kartavya.tech through a shared visual identity, headline, and content architecture.
- Turned the owned website into the source of truth for projects and long-form evidence, giving shorter social profiles a consistent path back to substantive work.

Project GANET - Finance Digital Garden and Learning Collective Jan 2025–Present

- Built GANET as a personal finance vault and public digital garden: reusable models and templates, papers, study notes, opinionated guides, and beginner roadmaps.
- Published a frozen static snapshot with zero runtime data dependencies and MkDocs provenance docs so templates and models stayed auditable beyond a single assignment.

EDUCATION

Hult International Business School | London, UK *Expected May 2027*

Triple Crown Business School | Bachelor of Business Administration
