TECHNICAL PROFILE

Enterprise AI buyers stall when pilots never reach production. I embed with operational teams, scope integration constraints, and ship working automations that survive compliance review.

RELEVANT EXPERIENCE

Margaradarshaka Co-Founder and Technical Lead, Remote Jan 2025–Present

- Held real-time voice delivery inside a projected INR 50-per-call ceiling - balancing Whisper inference, response latency, and mandatory human review before any scaled commit.
- Prototyped a Whisper/C++ edge inference path to hold per-call compute inside the INR 50 ceiling - bounded automation before full voice-stack spend.

AstroPatshala Co-Founder and Operations Lead, Remote Jan 2021–Present

- Built AstroPatshala’s repeatable operating model by defining how pricing and licensing governed packaged services, market entry, and delivery.
- Built and maintained two production codebases governing customer acquisition, education delivery, research publishing, and internal operations - with deployment cadence tied to licensing releases.

Independent Healthcare Venture (Client Anonymised) Jun 2024–Aug 2024

Technology and Strategy Consultant Intern, London, UK

- Translated stakeholder interviews into two decision-ready deliverables: a post-discovery market report and a phased entry plan grounded in customer segments and product thesis.
- Moved the venture from discovery to launch readiness in two months by shipping three assets: an MVP website, information architecture, and implementation roadmap.

US Defence Drone Spinout Commercialisation Assessment Jan 2025–May 2025

- Assessed a US academic drone spinout using KTH Innovation-style venture-readiness criteria, testing technical feasibility, commercial potential, company formation, and execution risk.
- Mapped a gated commercialisation path from technical validation and founder agreements through defence-market entry, financing readiness, and the next spinout decision.

Hospitality and Venture Operations Automation Jan 2021–Present

- Wrote weekly revenue ingestion scripts feeding the Excel and Power BI reporting layer that paired with front-desk reconciliation controls.
- Sketched REST integrations between ERP, POS, and PMS systems to reduce manual re-keying across property operations.

EDUCATION

Hult International Business School | London, UK Expected May 2027

Triple Crown Business School | Bachelor of Business Administration

Double Major in Entrepreneurship and Design (Double Major)

£7614.00 | UK Firsts honors

Honors: List for consecutive terms; Academic Excellence Scholarship; Social Impact Award; Full-Ride Master’s Grant

Design Thinking in Practice; Design Thinking in Web Design; Acting 101: Voice, Body, and Character; Strategic Ambiguity; Corporate Entrepreneurship
