RELEVANT EXPERIENCE

- Savi Hotels & Resorts *Operational Lead, Jaipur, India* Jan 2021–Jul 2026
- Kept a five-workstation, eleven-drive hotel IT estate live through the turnaround by running cabling, storage health checks, and downtime-window patches so front desk and back office did not drop during peak service.
 - Operated guest WiFi across property gateways with per-arrival password rotation instead of shared lobby credentials, then extended network topology when a new router was added so mesh routing stayed coherent for rooms and back office.
- Margaradarshaka *Co-Founder and Technical Lead, Remote* Jan 2025–Present
- Required human review after every AI-handled call - no unattended counselling sessions and no automated judgment on safeguarding-sensitive calls.
 - Rejected a premature full build after feasibility testing exposed payer-user misalignment and counselling-liability risk - stopping spend before scaled commitment.

RELATED PROJECTS

- Crestara Smart-Room Digital Twin and Privacy-First IoT Platform Sep 2024–Dec 2024
- Engineered privacy into the architecture through checkout-triggered deletion, guest-requested erasure, transparent audits, local processing, and removable devices.
 - Extended the digital twin into an underwriting model testing capital cost, occupancy, energy, maintenance, subscription revenue, and payback across deployment scenarios.
- Hospitality and Venture Operations Automation Jan 2021–Present
- Built backup and data-sync scripts with recovery paths tested during planned downtime windows.
 - Wrote weekly revenue ingestion scripts feeding the Excel and Power BI reporting layer that paired with front-desk reconciliation controls.
