## PROGRAMS PROFILE

---

Corporate venture labs struggle to source credible founder partnerships. I connect innovation briefs to external startup pipelines with partnership sourcing, pilot scoping, and governance handoffs.

## RELEVANT EXPERIENCE

---

Founder and President *Hult AI Collective, London, UK* Jan 2025–Present

- Made HAC's work reusable and publicly legible through kartavya.tech/HAC, centralising event records, technical resources, and treasury infrastructure in one operating hub.
- Used partner-fit research to prioritise institutional and commercial prospects, then tailored outreach and follow-up into a sponsorship pipeline for HAC events and programmes.

Independent Healthcare Venture (Client Anonymised) Jun 2024–Aug 2024

*Technology and Strategy Consultant Intern, London, UK*

- Translated stakeholder interviews into two decision-ready deliverables: a post-discovery market report and a phased entry plan grounded in customer segments and product thesis.
- Moved the venture from discovery to launch readiness in two months by shipping three assets: an MVP website, information architecture, and implementation roadmap.

- Generated the 20-slide executive deck programmatically from the end-to-end diagnostic, preserving analytical consistency across the board narrative.

Danone YoPRO APEX Diagnostic *Pro Bono Advisor* Sep 2024–Dec 2024

- Co-authored a 2,989-word board playbook recommending YoPRO APEX as an integrated precision-nutrition platform built around a bioactive formulation, dual-compartment pack, and AI data layer.
