MARKETS PROFILE

Capital-markets teams need models that survive a shock window. I run simulated-capital portfolio work, factor diagnostics, and Monte Carlo stress, then write the committee memo from the logs - not from slide inventiveness.

RELEVANT EXPERIENCE

SRBS Group Associate to the Managing Director, Jaipur, India Jan 2021–Jul 2026

- Recommended - and subsequently helped execute - the approximately GBP 40,000 Shimla hotel lease after integrating market conditions, prior operator books, asset quality, downside risk, operating fit, and valuation.
- Built a reusable seven-part diligence framework spanning market attractiveness, operator quality, asset condition, legal exposure, commercial fit, valuation logic, and post-transaction execution risk.

Savi Hotels & Resorts Operational Lead, Jaipur, India Jan 2021–Jul 2026

- Grew weekly rooms from four room-nights at takeover to a peak week of five full-property sell-out days - market timing helped, but the ramp held only after corporate MICE banquets ran morning to evening and walk-in family lunches shared the same kitchen and service spine.
- Locked the demand spike into sustained commercial forms - repeat corporate packages, alternate booking structures beyond ad-hoc nights, and written operating playbooks - so rooms, banquet dayparts, and walk-in F&B could hold volume after the peak week.

RELATED PROJECTS

Adaptive Efficiency - BWC Jan 2025–May 2025

- Ran a USD 1 million StockTrak mandate as simulated capital under IPS single-name caps and bi-weekly committee diaries - eight people, firewalled from live brokerage - with factor sleeves and GANET-informed macro overlays across AI, defence, financials, and defensive retail.
- Moved into cash and inverse-ETF hedges within hours of the 2 April tariff shock via the Section 5 override, containing the trough at -6.44% versus SPY at -11.72% (528 bp downside advantage).

BWC Quantitative Portfolio Audit Engine Jan 2025–May 2025

- Built a reproducible Python 3.13 research stack (uv, PEP 517) implementing Fama-French three-factor OLS, Black-Litterman allocation, and Kelly sizing from explicit assumptions rather than packaged screener defaults.
- Stress-tested the BWC book with 10,000 Monte Carlo paths and Cornish-Fisher VaR (5% VaR -2.56%, Sortino 3.49, Calmar 6.34, Jensen alpha 0.686), keeping simulation firewalled from live execution

EDUCATION

Hult International Business School | London, UK Expected May 2027

Triple Crown Business School | Bachelor of Business Administration

~~Double Major~~ Entrepreneurship and Design (Double Major)

~~£7,764.00~~ | UK Firsts honors

~~Honors~~ List for consecutive terms; Academic Excellence Scholarship; Social Impact Award; Full-Ride Master's Grant

~~Relevancy to Business~~ Strategy; Design Thinking in Practice; Design Thinking in Web Design; Acting 101: Voice, Body, and Character
