RELEVANT EXPERIENCE

- Savi Hotels & Resorts *Operational Lead, Jaipur, India* Jan 2021–Jul 2026
- Completed property handover by running site analysis, verifying room and F&B inventory, and formulating operating agreements - then fitted the meeting room and banquet spaces to a bookable standard before the first guest weeks.
 - Grew weekly rooms from four room-nights at takeover to a peak week of five full-property sell-out days - market timing helped, but the ramp held only after corporate MICE banquets ran morning to evening and walk-in family lunches shared the same kitchen and service spine.
- AstroPatshala *Co-Founder and Operations Lead, Remote* Jan 2021–Present
- Built AstroPatshala's repeatable operating model by defining how pricing and licensing governed packaged services, market entry, and delivery.
 - Built and maintained two production codebases governing customer acquisition, education delivery, research publishing, and internal operations - with deployment cadence tied to licensing releases.
- SRBS Group *Associate to the Managing Director, Jaipur, India* Jan 2021–Jul 2026
- Protected group continuity during an active operational disruption by restoring access and connectivity across visa-linked institutional accounts.

RELATED PROJECTS

- Culinary Operations Rotation Jan 2021–Present
- Executed knife work, sauce bases, and timed batches against live service windows while maintaining FIFO, allergen, and temperature controls.
 - Protected order accuracy under peak volume by coordinating service, resolving guest issues immediately, and shadowing the maitre d' through front-of-house handover.
- Independent Culinary Development and Kitchen Systems Practice Jan 2021–Present
- Improved service readiness through repeatable mise en place routines spanning vegetable preparation, knife work, sauce bases, fermentation, temperature checks, and close-down hygiene.
 - Standardised culinary development into a service-ready system built around preparation lists, labelled storage, FIFO rotation, allergen separation, and timed batch plans.
