INVESTMENT PROFILE

Early-stage portfolios stall between cheques and milestones. I support fund workflows, founder onboarding, and diligence artefact management so partners stay focused on deployment.

RELEVANT EXPERIENCE

Margadarshaka *Co-Founder and Technical Lead, Remote* Jan 2025–Present

- Ran Margadarshaka's pre-scale GTM as gated experiments - demand tests, counsellor capacity checks, and unit-economics checkpoints before marketing spend.
- Drafted early cap-table scenarios and angel-outreach materials while mapping investor fit against counselling-liability and payer-user alignment risks.

AstroPatshala *Co-Founder and Operations Lead, Remote* Jan 2021–Present

- Built AstroPatshala's repeatable operating model by defining how pricing and licensing governed packaged services, market entry, and delivery.
- Built and maintained two production codebases governing customer acquisition, education delivery, research publishing, and internal operations - with deployment cadence tied to licensing releases.

RELATED PROJECTS

Duve Venture Diligence and Industry Tearsheet Jan 2025–May 2025

Spec Strategy

- Delivered an industry tearsheet and diligence pack for an anonymised London VC evaluating Tel Aviv-based Duve during its bridge between seed and Series A.
- Tested Duve's investment case against PMS dependencies, hotel-operator workflows, rollout friction, customer concentration, downside exposure, and integration upside.

Hospitality and Venture Operations Automation Jan 2021–Present

- Automated staff-attendance reminders and operational mail workflows across hotel properties with logged cron schedules and failure alerts.
- Built backup and data-sync scripts with recovery paths tested during planned downtime windows.
