DESIGN PROFILE

Enterprise SaaS teams scale UI debt fast. I define component logic, service patterns, and documentation that let product squads ship consistent workflows without designer bottlenecks.

RELEVANT EXPERIENCE

Margadarshaka *Co-Founder and Technical Lead, Remote* Jan 2025–Present

- Ran Margadarshaka delivery in two-week Scrum cadences - backlog grooming, design handoffs, and Kanban visibility across engineering and counselling stakeholders.
- Turned post-call transcripts into structured case dossiers and counsellor dashboards - linking entities, session history, and follow-up tasks in one view.

Founder and President *Hult AI Collective, London, UK* Jan 2025–Present

- Kept the hackathon's closing programme on schedule after confirmed external speakers withdrew by designing and delivering the replacement AI workshop at short notice.
- Took Hult's student AI organisation from operating concept to public launch by building its programming calendar, outreach cadence, event delivery, treasury controls, and technical infrastructure.

RELATED PROJECTS

NIRMANA Design Capstone Sep 2024–Dec 2024

- Created NIRMANA through 4 brief iterations, building a design-learning system around 75 gamified questions that help practitioners recover observation, practice, repetition, and discourse.
- Extended the critique of design education into 7 connected formats: curriculum, essays, short film, music score, microsite, documentation, and spatial manifestation.
- Built 2 companion interfaces - a public microsite and a Snaptrude spatial prototype - connecting the digital card system to its proposed physical exhibition environment.

Presentation Format Conversion Platform Jan 2025–Dec 2025

- Built bidirectional round-tripping among PPTX, Google Slides, and HTML inside a local-first Electron shell, preserving animation intent through an extensible plug-in layer.
- Reduced format lock-in by separating the conversion core from format adapters, creating a practical path for new import and export targets without rebuilding the desktop application.
