REAL ASSETS PROFILE

High-end real estate PE needs underwritable numbers, not brochure comps. I price assets from operating evidence, stress assumptions, and package PropTech-ready diligence packs.

RELEVANT EXPERIENCE

Family Real Estate Business *Real Estate Operations Associate, Jaipur, India* Jan 2021–Present

- Moved a 12-property portfolio - 8 apartments and 4 hostels - from construction coordination through commercial readiness into sales and leasing.
- Closed signed leases and sales by sequencing pricing bands, qualified viewings, negotiation, and handover for monthly rents of GBP 800 to GBP 3,800 and penthouse sales of GBP 70,000 to GBP 90,000.

Savi Hotels & Resorts *Operational Lead, Jaipur, India* Jan 2021–Jul 2026

- Completed property handover by running site analysis, verifying room and F&B inventory, and formulating operating agreements - then fitted the meeting room and banquet spaces to a bookable standard before the first guest weeks.
- Locked the demand spike into sustained commercial forms - repeat corporate packages, alternate booking structures beyond ad-hoc nights, and written operating playbooks - so rooms, banquet dayparts, and walk-in F&B could hold volume after the peak week.

RELATED PROJECTS

Leased Hotel Turnaround and Operating Model Strategy Jan 2021–Jul 2026

- Modelled room-occupancy recovery and on-property F&B sales - including MICE dayparts and walk-in lunches - as separate commercial levers in a mixed-revenue turnaround used for lease valuation.
- Recorded the failed hold thesis as a two-month kill-gate exit - offboarding trail, inventory state, and future-lease pitchbook preserved so the stop itself remained decision-grade evidence.

London Airbnb Pricing and Regression Models May 2025–Dec 2025

- Estimated a log-linear pricing model on 6,319 London Airbnb listings and 13 variables, explaining 50% of price variance and placing 73% of predictions within one price band.
- Led as primary developer and designer, owning the analytical workflow from data preparation and log-linear model design through interpretation and presentation.
