TURNAROUND PROFILE

Distressed hospitality assets need kill-gate discipline, not optimism. I run turnaround diagnostics on occupancy, staffing, and service friction with documented stabilization controls.

RELEVANT EXPERIENCE

Savi Hotels & Resorts *Operational Lead, Jaipur, India* Jan 2021–Jul 2026

- Completed property handover by running site analysis, verifying room and F&B inventory, and formulating operating agreements - then fitted the meeting room and banquet spaces to a bookable standard before the first guest weeks.
- Triggered a two-month profitability kill gate when leasing velocity and contribution stayed below threshold - returning the property with offboarding records, inventory state, and a reusable pitchbook rather than extending a failed hold thesis.

SRBS Group *Associate to the Managing Director, Jaipur, India* Jan 2021–Jul 2026

- Recommended - and subsequently helped execute - the approximately GBP 40,000 Shimla hotel lease after integrating market conditions, prior operator books, asset quality, downside risk, operating fit, and valuation.
- Built a reusable seven-part diligence framework spanning market attractiveness, operator quality, asset condition, legal exposure, commercial fit, valuation logic, and post-transaction execution risk.

RELATED PROJECTS

Leased Hotel Turnaround and Operating Model Strategy Jan 2021-Jul 2026

- Produced a month-one lease-decision baseline by mapping RevPAR, room occupancy, staffing, guest satisfaction, asset condition, and service friction into one diagnostic packet for the same property under operating control.
- Recorded the failed hold thesis as a two-month kill-gate exit - offboarding trail, inventory state, and future-lease pitchbook preserved so the stop itself remained decision-grade evidence.

Independent Risk Modelling and Control Design Jan 2025–May 2025

- Built hotel FMEA and operational risk registers during the Savi turnaround - mapping service failure modes, kill gates, and control owners.
- Drafted GTM and market-risk trees for confidential venture launches without naming clients or claiming regulated advice.
