EXECUTIVE PROFILE

Hospitality corporate groups need portfolio strategy, not property anecdotes. I support innovation envelopes, asset diagnostics, and group-level recommendations from operating evidence.

RELEVANT EXPERIENCE

Savi Hotels & Resorts *Operational Lead, Jaipur, India* Jan 2021–Jul 2026

- Grew weekly rooms from four room-nights at takeover to a peak week of five full-property sell-out days - market timing helped, but the ramp held only after corporate MICE banquets ran morning to evening and walk-in family lunches shared the same kitchen and service spine.
- Locked the demand spike into sustained commercial forms - repeat corporate packages, alternate booking structures beyond ad-hoc nights, and written operating playbooks - so rooms, banquet dayparts, and walk-in F&B could hold volume after the peak week.

SRBS Group *Associate to the Managing Director, Jaipur, India* Jan 2021–Jul 2026

- Recommended - and subsequently helped execute - the approximately GBP 40,000 Shimla hotel lease after integrating market conditions, prior operator books, asset quality, downside risk, operating fit, and valuation.
- Executed the 8-day Shimla takeover through a room-by-room property rundown, inventory and quality verification, tenancy review, risk logging, stakeholder coordination, and documented handover to the incoming operating team.

RELATED PROJECTS

IHCL/Taj Hotels Corporate Innovation Diagnostic Sep 2024–Dec 2024
Independent Strategic Teardown

- Mapped Taj's service-capacity constraint across 129 properties and the 150-property scaling threshold, then built Project Bifocal around that gap.
- Carved 30% of IHCL's proposed INR 5,000 crore envelope into an INR 1,500 crore Box 3 portfolio across Qmin, ama, Tree of Life, and new ventures, with fuzzy gates tied to repeat purchase, NPS, contribution margin, and kill thresholds.

Noritake Hospitality Tableware Positioning Strategy Sep 2025–Dec 2025
Applied Consulting

- Mapped Noritake's JPY 147 million tabletop loss against Asian hospitality whitespace using Blue Ocean Strategy and strategic-group analysis.
- Applied Blue Ocean and strategic-group repositioning, then modelled 15% to 25% premium pricing across 40% to 50% of tabletop revenue to project USD 54 million to USD 90 million in incremental revenue.
