DESIGN PROFILE

Accelerator products ship cluttered interfaces under time pressure. I translate research and systems thinking into interface flows, component choices, and usability tests founders can iterate on.

RELEVANT EXPERIENCE

Independent Healthcare Venture (Client Anonymised) Jun 2024–Aug 2024

Technology and Strategy Consultant Intern, London, UK

- Translated stakeholder interviews into two decision-ready deliverables: a post-discovery market report and a phased entry plan grounded in customer segments and product thesis.
- Moved the venture from discovery to launch readiness in two months by shipping three assets: an MVP website, information architecture, and implementation roadmap.

Margaradarshaka Co-Founder and Technical Lead, Remote Jan 2025–Present

- Rejected a premature full build after feasibility testing exposed payer-user misalignment and counselling-liability risk - stopping spend before scaled commitment.
- Designed a psychometric intake layer for career-guidance flows - translating trait signals into counsellor-ready prompts without automating judgment calls.

RELATED PROJECTS

Project OULM - One YMCA Youth Community Platform Sep 2024–Dec 2024

Client Advisory

- Connected online pathways to 2 physical destinations - Welcome Areas and the Woodland Cafe - so discovery, safeguarding, and community participation resolve in real places.
- Shifted the growth model away from daily active users toward offline belonging - building accountability architecture with intentional verification friction for under-16 access.

NIRMANA Design Capstone Sep 2024–Dec 2024

- Extended the critique of design education into 7 connected formats: curriculum, essays, short film, music score, microsite, documentation, and spatial manifestation.
- Created NIRMANA through 4 brief iterations, building a design-learning system around 75 gamified questions that help practitioners recover observation, practice, repetition, and discourse.
