INVESTMENT PROFILE

I build market maps, assess teams and products, and prepare investment narratives for London pre-seed diligence.

RELEVANT EXPERIENCE

SRBS Group *Associate to the Managing Director, Jaipur, India* Jan 2021–Jul 2026

- Built a seven-part diligence framework covering market, operator, asset, legal, commercial, valuation, and execution risks.
- Recommended and helped execute an approximately GBP 40,000 Shimla hotel lease, assessing markets, books, asset quality, downside, operating fit, and valuation.

Margadarshaka *Co-Founder and Technical Lead, Remote* Jan 2025–Present

- Drafted cap-table scenarios and angel-outreach materials, assessing investor fit against liability and payer-user alignment risks.
- Stopped a premature full build after feasibility tests exposed payer-user misalignment and counselling-liability risk.

AstroPatshala *Co-Founder and Operations Lead, Remote* Jan 2021–Present

- Defined pricing and licensing for AstroPatshala's packaged services, market entry, and delivery model.
- Maintained two production codebases for acquisition, education, publishing, and operations, aligning deployments with licensing releases.

RELATED PROJECTS

Duve Venture Diligence and Industry Tearsheet Jan 2025–May 2025

Spec Strategy

- Delivered an industry tearsheet and diligence pack for an anonymised London VC evaluating Tel Aviv-based Duve during its bridge between seed and Series A.
- Tested Duve's investment case against PMS dependencies, hotel-operator workflows, rollout friction, customer concentration, downside exposure, and integration upside.

Project GANET - Finance Digital Garden and Learning Collective Jan 2025–Present

- Built GANET as a personal finance vault and public digital garden: reusable models and templates, papers, study notes, opinionated guides, and beginner roadmaps.
- Published a frozen static snapshot with zero runtime data dependencies and MkDocs provenance docs so templates and models stayed auditable beyond a single assignment.
