INVESTMENT PROFILE

Growth-stage funds need conviction on unit economics, not TAM slides. I evaluate scaling markets, cohort retention, and expansion risk for Series A-C diligence committees.

RELEVANT EXPERIENCE

SRBS Group *Associate to the Managing Director, Jaipur, India* Jan 2021–Jul 2026

- Built a reusable seven-part diligence framework spanning market attractiveness, operator quality, asset condition, legal exposure, commercial fit, valuation logic, and post-transaction execution risk.
- Recommended - and subsequently helped execute - the approximately GBP 40,000 Shimla hotel lease after integrating market conditions, prior operator books, asset quality, downside risk, operating fit, and valuation.

Margadarshaka *Co-Founder and Technical Lead, Remote* Jan 2025–Present

- Drafted early cap-table scenarios and angel-outreach materials while mapping investor fit against counselling-liability and payer-user alignment risks.
- Set stage gates on demand, delivery economics, and human-review cost - testing each before authorising the next build tranche.

RELATED PROJECTS

Duve Venture Diligence and Industry Tearsheet Jan 2025–May 2025

Spec Strategy

- Tested Duve's investment case against PMS dependencies, hotel-operator workflows, rollout friction, customer concentration, downside exposure, and integration upside.
- Framed Duve as a conditional follow-up - not a clean proceed/pass - naming PMS integration dependency, rollout friction, and customer concentration as diligence gates before conviction.

Toast Hotel F&B Expansion Strategy *Applied Consulting* Sep 2025–Dec 2025

- Used VRIO to identify Toast's deployment capability across 156,000 locations and USD 186 billion in annual payment volume as the defensible base for a hotel F&B vertical.
- Compared Toast's core restaurant economics with a 50-200-property hotel-chain model, deriving USD 120,000 ACV, 11.9:1 LTV/CAC versus 1.4:1 in core, and USD 6.82 billion incremental 10-year NPV.

EDUCATION

Hult International Business School | London, UK *Expected May 2027*
